

Charge Doctor And Wife With Mystery Murder

Confession of Young Ford That He Took Swoonheart To Dr. Walsh's Office For Illegal Operation Leads To Finding Vital Organs.

July 15.—Vital organs, which may be those of pretty Edith Green, 18, whose dismembered body was found in cardboard boxes in Mattapan, a suburb, were recovered in a raid on the home of Dr. Thomas E. Walsh today, according to an announcement by police this afternoon.

The announcement came shortly after Police Superintendent Crowley issued a warrant in municipal court charging Dr. Walsh and his wife, said to have had full knowledge of an illegal operation on the girl, with murder.

The raiding party, including Superintendent Crowley and Medical Examiner Leary, found a garbage can at the door of Dr. Walsh's office on the home, police said.

Taken into the kitchen and its contents dumped out on the floor, a garbage can revealed inner parts of a human being that were said to correspond identically with those missing from the dismembered body of the cardboard box victim, according to Crowley.

Ford Released On Bail.
James Vincent Ford, 21, sweetheart of the girl, whose startling confession led to the unraveling of the mystery surrounding the identity of the girl and the manner in which she met her death, waived preliminary examination today on a charge of being an accessory both before and after the fact of an illegal operation and was released in bonds of \$100 to the action of the next grand jury meeting in August.

Clear Up Many Details.
Events tumbled over themselves in bewildering rapidity in the case, clearing up in many important details the mystery that baffled police for two days after a girl's body, backed into pieces, was found at a cemetery in Mattapan, a suburb, tucked into cardboard boxes of a burial sack neatly bound in cellophane.

The gruesome find created a public interest unparalleled in local annals for many years and the interest grew to limitless dimensions during the two days authorities strove desperately to learn the girl's identity.

The first concrete development in the case came when the victim was positively identified by a young woman with whom Miss Green had worked as a nurse in a hospital. The young woman named Miss Green's sister to police and Ford was then in custody.

He readily gave a lengthy, detailed account to Superintendent Crowley of his relations with the girl as well as details of the operation. Ford's confession was said to have been confirmed by the police, who said the girl was a victim of illegal surgery.

In a domestic condition, Miss Green was taken by Ford to the office of Dr. Walsh last Friday morning, according to his alleged statement, and the physician was given \$150 to carry out the operation.

Returning to the doctor's office Saturday night, Ford, according to the police, was told that "everything would be all right."

"I saw Edith lying on a couch in the doctor's office and she seemed to be in fine shape," Ford was said to have told police.

When he telephoned Dr. Walsh Sunday morning, he was told to hurry over to the office and when he got there he informed the girl was dead, police said Ford told them.

"And then I faint," the alleged confession went on.

When he regained consciousness, he was told by Dr. Walsh to go to the police but the only reason he did not was, Ford declared, was that he did not get out of this body.

Ford Never Recovered.
Ford never left Dr. Walsh's office, Ford promised to return to aid in the recovery of the body, but he never came back, according to his confession to the police.

"That's all I know about it," Ford said.

35th Anniversary Celebrated

The Freeman Staff and Wives Entertained by The Freeman Publishing Company's President in Celebration of His Coming to Kingston.

Wednesday evening Jay E. Klock, president of The Freeman Publishing Company, entertained the members of the force with their wives and lady friends to the number of one hundred at a banquet at The Governor Clinton Hotel. The occasion was the thirty-fifth anniversary of Mr. Klock becoming a resident of Kingston and associated with The Freeman, which under his administration has grown from a four-page newspaper to its present size, and has one of the best equipped newspaper plants in any city the size of Kingston in the world.

The large dining room of the hotel had been artistically decorated for the occasion and on each table were bunches of carnations. Shortly after 8 o'clock the diners were escorted into the banqueting room and the following fine menu was faultlessly served by the large corps of efficient waitresses:

Coupe of Fruit, Florida Celery
Essence of Chicken Tenderloin of Trout Potatoes, Palestine Fillet Mignon
Fresh Vegetables Potatoes, Elysee Russian Dressing Nesselrode Pudding Assorted Cakes Demi Tasse

Cigars
During the serving of the banquet Charles H. Oakley, former organist at the Keeney Theatre on Wall street, rendered a fine musical program on the piano and accompanied the diners in singing the latest popular hits of the day.

President Klock at the close of the banquet presided as toastmaster and brief addresses were made by Managing Editor A. W. Hoffman, City Editor Edward L. Merritt, Alfred DuPont, secretary of The Freeman Publishing Company, and Joseph F. Sullivan, of the composing department, in which the growth of The Freeman was stressed. From a circulation of one thousand thirty-five years ago The Freeman today daily prints over eight thousand to supply the needs of its readers.

Entertainment was also furnished the guests by Leon Carey of Woodstock and Tommy Dolan of Kingston in a number of vocal selections, accompanied by Paul Barnum of this city on the piano, which was exceptionally good, and the artists were heartily applauded.

At a late hour the celebration was brought to an appropriate close with the singing of "Auld Lang Syne."

GIVES UP ATTEMPT TO SWIM CHANNEL

Dover, Eng., July 15.—Frank Perks, an Englishman, who left Griz-Nex, France, on his third attempt to swim the English Channel, at 11:30 last night, gave up the attempt at 10 o'clock this morning.

Perks was in the water ten and a half hours and swam 14 miles. The strong wind, however, proved too much for him.

FOUR KILLED, 30 HURT IN RIOTING AT CALCUTTA

Calcutta, July 15.—Four persons were killed and more than fifty injured when rioting between the Hindu and Moslem populations broke out again today.

The riot started when a Hindu religious procession filed past a Mohammedan Mosque.

Secures Position.
Miss Mildred Whitaker, an experienced graduate of Spencer's Business School, 238 Fair street, has secured a desirable position as stenographer, typist and business clerk with the Kingston Gas & Electric Company, 611 Broadway.

Orders Will Keep Plant Busy.

Kreppel & Streifer of East Union and Ann streets, have returned from New York with a complete line of fall goods, which will keep their plant busy for a long season. They request all their previous help to return to work.

Excursion to Newburgh.

The Ladies Aid Society of the Port Ewen Methodist Episcopal Church will run an excursion to Newburgh on Saturday, July 17, on the steamer Benjamin B. Odell. The boat leaves her dock at 11 a. m. sharp.

Business Certificate Filed.

Beatrice K. Lawton and Catherine Weber of Arushan have certified to the Ulster county clerk that they are conducting a business in the town of Hurley under the name and style, "Kemozia Lake Inn."

Queen Victoria Ill.

London, July 15.—The condition of Queen Victoria, of Sweden, took a turn for the worse today, according to a dispatch from Stockholm. The queen is suffering from a heart affection.

Dr. Gorman at Newburgh.

The Rev. Dr. G. W. Gorman, superintendent of the Five Points Mission, New York city, will occupy his old pulpit at Grace Church, Newburgh, next Sunday, morning and evening.

Parade Precedes County Picnic Here August 18

Picnic had Parade Will Be Bigger and Better When Ulster County Farm Bureau and Chamber of Commerce Unite in Annual Outing at Forsyth Park.

Ulster county's annual picnic and outing will be held in Forsyth Park on Wednesday, August 18, and will be preceded by a big street parade in the morning made up of business, Grange and town floats and headed by a band. These plans were decided upon at a meeting of the combined Farm and Home Bureau and Chamber of Commerce committee held Wednesday evening at the Chamber of Commerce rooms. It is expected that over twenty thousand people will be in Kingston that day to attend the annual outing.

It was decided at the meeting Wednesday to ask Mayor Morris Block to issue a proclamation calling upon the merchants of the city to close the stores for the entire day, or at least half a day, and also the industrial plants, so that every one would have the opportunity of enjoying this annual event.

It is expected that there will be an even larger number of floats in line during the parade than last year. Silver cups will be awarded to the floats awarded the best appearing in the line of march by a committee of judges.

It was also planned to inaugurate an extensive advertising campaign in the newspapers and the posting of placards both in Kingston and throughout the county and adjoining territory.

The committee on entertainment at the park is planning some attractive features. There will be a side show and athletic events.

A reviewing stand will be erected in the park before which the parade will pass so that the floats may be judged by the committee and the prizes awarded.

The committee will meet again on August 2 at Forsyth Park at which time the locations for the stands, athletic field and other matters will receive attention.

Andrews Assured Cooperation

Dry Czar Is Pleased With Reception Accorded Him in London—Entire Cooperation of British Government Assured.

London, July 15.—Formal conferences between General Lincoln C. Andrews, United States Prohibition director, and British officials relative to the administration of the Anglo-American rum-running treaty opened at the Foreign Office today.

Sir Austen Chamberlain, Foreign Minister, assured General Andrews of the entire cooperation of the British Government.

General Andrews replied briefly on behalf of the United States.

"Sir Austen gave us the finest reception we could ever anticipate, setting out the general aspects of the situation and assuring us of absolute cooperation," said General Andrews after the formal session.

"We have made a fine start and should accomplish much."

After the formal conference a number of sub-committees were appointed to consider technical questions. A second general conference will be held on Saturday.

The American delegates probably will visit the leading British ports to investigate conditions under which liquor is shipped from England.

The British conferees are H. G. Van Sittart for the Foreign Office, Sir George Woodcock for the Board of Trade, Captain H. P. Douglas for the Admiralty, C. J. B. Grylls for the customs department, and L. B. F. Fricton for the colonial office.

Gov. Ferguson In Train Wreck

In Which the Engineer Was Killed and the Freeman Bodily Injured—Governor "Ma" Escaped Serious Injury.

Temple, Tex., July 15.—Gov. Miriam Ferguson was thrown violently against her berth and badly shaken up by escaped serious injury, while the engineer was killed and several others badly injured in a train wreck early today.

The governor's train, Santa Fe No. 7, bound from Fort Worth to Houston, struck an open switch and plunged into the front of a freight train on a siding six miles from Temple. The wreck occurred at 2 a. m. The train was speeding sixty miles per hour. Its engine crumpled and the baggage car overturned.

Engineer C. W. Chew of Abilene was killed. The Freeman was badly injured.

Our Growing Population.

The following births have been registered to the board of health:

Mr. and Mrs. Leonard Shattin, 43 North Front street, a son, Joseph Bernard, at Benedictine Hospital.

Mr. and Mrs. William Rombach, Route 4, Saugerties, a son, Frederick Emil, at Benedictine Hospital.

Mr. and Mrs. Elmer Waack, 10 Cedar street, a daughter, Shirley Calvera, at Benedictine Hospital.

Mrs. Coolidge Enjoys Hiking

And Supervision of the Luxurious Camp Keeps Her Busy—Will Go Swimming As Soon As Chill Leaves The Air.

White Pines Camp, N. Y., July 15.

All of the news dispatches carried out of the Summer White House thus far have recorded in minute details what President Coolidge is doing and thinking. Perhaps there are those who would like to know the same about Mrs. Coolidge.

The lovely mistress of the executive mansion, the lady, as the secret service men put it, of the "million-dollar smile," has quickly adapted herself to life de luxe in the northern woods, and, weather permitting, she is about to have the wish for her favorite outdoor sport gratified.

A raft and spring board has been installed off the landing at White Pines and three bubble boats have arrived at the Summer White House. As soon as the brisk breezes lose some of their sting and the sun exerts its summer prerogatives in more determined fashion, Mrs. Coolidge is going swimming. Last summer at Swampscott she dipped into the ocean at least once a day and she became an enthusiastic swimmer. The water temperature in Lake Osgood here is about the same as that of Massachusetts Bay last summer, but to date the air has held too much of a chill to invite swimming as a regular pastime.

For the benefit of those removed from regular watering places, a bubble boat is a cross-bar raft supported by three inflated tubes. A strap seat across the centre keeps the user partially out of the water. If desired, a small sail may be attached in fresh waters where there are no breakers nor swell to give momentum.

Up until now, Mrs. Coolidge has devoted much of her days to hiking. In Washington she took long walks through the parks daily and up here the woods and the mountains are holding forth particularly attractive inducements.

At other times she is supervising the luxurious camp—so-called by the woods because of its location in the country. The thirty cabins, the magnificent furnishings and draperies, the supervision of the small army of servants she brought from Washington—all these give her much to do, for, as in the White House at Washington, she does not leave all the work to Miss Ellen Riley, the housekeeper. She is in intimate touch with every detail in the management of her establishment.

The Kirkwood Library is another source of entertainment for Mrs. Coolidge. Here, on rainy days, she may sit before the magnificent pink marble fireplace and either choose from the priceless collection of books or knit. At the latter the first lady is an expert. In a recent national contest she entered a piece of her handiwork—a bed spread—and judged entirely on its merit and not because of its owner, she won honorable mention.

Fishing as yet has not claimed Mrs. Coolidge, but the avidity with which her husband has taken up the sport has aroused her curiosity.

Mrs. Coolidge has yet had no visitors. The arrival of Mrs. Smith, wife of New York's governor, on Friday will afford her the first opportunity to extend the hospitality for which she is famous. But if everyone in this section of the woods who has expressed a fervent wish to meet her were to be given the opportunity she would be entertaining from early morning until far into the night.

SMITHS ENTERTAIN 600 ALBANY ORPHANS

Albany, N. Y., July 15.—Upwards of 600 Albany orphans were to be entertained at a circus here today by Governor Al Smith and Mrs. Smith.

"See that the boys and girls have peanuts to feed the elephants," was the word sent out by the governor as the little folks were getting ready for their treat tonight.

The Governor and Mrs. Smith will start for the Adirondacks where tomorrow they will be luncheon guests of President and Mrs. Coolidge at the Summer White House on Osgood Lake.

The Governor and Mrs. Smith will be accompanied on their visit to the Coolidge camp by Adjutant General Franklin W. Ward. The governor will extend a formal welcome on behalf of the people of the state to President and Mrs. Coolidge.

Russian Missionary to Speak.

Mikodons Lukianchuk, a native of Russia, will speak at the Old Bridge M. E. Church on Sunday, July 18 at 11 a. m. Mr. Lukianchuk was trained in the United States for mission work and hopes to return to his own country soon as a missionary.

In the Surrogate's Court.

In the surrogate's court, a decree has been entered in the matter of the judicial settlement of the accounts of Clark R. Gault, executor of the estate of George Lachman.

Joseph Augustus Shufeldt, attorney for the plaintiff.

Orth Presiding Service Sunday.

There will be an orth presiding service at Ulster Park, St. Henry of Ulster Center on next Sunday, July 18, as the pastor is away on vacation.

Identify 1 of 14 Victims Of Twilight Inn Fire

How Hospital Met Emergency

Tannersville Proved Itself Worthy When Confronted by Serious Condition Following Twilight Inn Holocaust.

The efficiency with which the Tannersville Emergency Red Cross hospital handled the situation following the fire at Twilight Inn Wednesday, speaks wonders for the little band of volunteer nurses, the Red Cross nurse and the doctors of the section. Ordinarily called on to care for a mere handful of cases, the hospital and staff were called out in the middle of the night to care for a dozen patients all in immediate need of assistance and at least two of them in a most serious condition. The situation was met in a most efficient manner and all of the patients were cared for.

For a time the doctors of that section were swamped with work and called for assistance from local doctors. However, by morning, the cases had been cared for and by noon the hospital was again being conducted in its usual manner. The Red Cross nurse stationed at Tannersville was on duty constantly for over 24 hours, having been on an emergency case prior to the fire. When the call for help came, as the fire victims were brought in she responded and remained on duty until all were cared for, and then she was persuaded to go off duty and rest.

The Tannersville emergency hospital is conducted in a large residence property on the main street and is a permanent hospital for emergency cases from that section. The hospital is open at all times and was not an emergency hospital set up to give temporary relief to the fire sufferers as many believe.

Woman Saves Aviator's Life

Portland, Ore., July 15.—To a woman who feared neither fire nor water, Lieut. Knauf, army reserve flyer, now on active duty at Vancouver barracks, today owes his life.

Mrs. Ola Rieck is the heroine.

Last evening, Lieut. Knauf with R. P. Parrish, a civilian pilot, a passenger, was flying over the Willamette River.

From some unexplained cause the plane dived, struck the high tension electric wires that span the river, burst into flames and whirled over and dropped into two feet of water.

Parrish was stunned and burned and unable to assist Knauf, who was rendered unconscious and was strapped fast in the cockpit of the blazing plane.

Mrs. Rieck was bathing.

She shouted to men who stood on the bank watching the fire to aid her in saving Knauf's life. But they were afraid of a gasoline explosion, and refused to come to her assistance.

Mrs. Rieck, however, without hesitation waded out, reached into the blistering hot cockpit, where Knauf lay in a heap, unsafened the safety straps and then dragged him under water in order to get him free from the tangled maze of wire supports.

She was just in time for a few minutes later the plane was completely destroyed. Both of the rescued men will live.

Funeral Today of Ex-Secy. Weeks

West Newton, Mass., July 15.—Under military guard, the body of John W. Weeks, former Secretary of War, lay in state in the First Unitarian Church here today while hundreds of persons including officials of state and nation, filed by slowly in a final tribute.

The body was borne from the home of Sinclair Weeks, son of the former War Department chief, to the church shortly after 10 o'clock this morning by eight stalwarts from the 10th U. S. Infantry, and a military guard of honor of 22 accompanied it.

Funeral services will be conducted from the church this afternoon, without ostentation, following which the body will be taken to Mt. Auburn cemetery for cremation and temporary burial. Later the ashes will be removed to the National Cemetery at Arlington, Va. for final disposition.

An official reception from Washington, including Secretary of War Dwight Davis, Postmaster General Harris S. New, Attorney-General John W. Barrett, Secretary of Labor James J. Davis, Major-General John L. Hines, chief of staff of the Army, and Senator Walter of Maryland, arrived at the Weeks home today to attend the services.

Treasury Balance.

Washington, July 15.—Treasury balance July 13: \$212,358,992.77.

Fourteen Bodies Now Recovered From Hotel Ruins—Search Continued for Missing Guests—Investigation to Determine Origin of Fatal Fire—Thrilling Experiences of Survivors—Four Persons Unaccounted For.

Of the fourteen bodies that had been taken from the ruins of Twilight Inn at Haines Falls up until noon today but one had been identified. The body which has been identified is that of the Rev. William Livingston Bishop of Philadelphia, Pa. It was identified by his two sons.

It is not thought likely that more than one or two of the remaining bodies will be identified. Some of the bodies that were recovered today were nothing more than skeletons. The bodies today lay in a barn a short distance from the inn.

Inquiries are coming into Haines Falls continually concerning persons whose names are not on the list that was made up by the hotel management immediately following the fire so that it is possible that some persons have been lost whose names are not included in the list of those missing.

Four Unaccounted For.

With fourteen bodies lying in the improvised morgue near the scene of the tragedy four persons are still unaccounted for. The hotel management are practically sure of the fact that the bodies of these four are in the ruins.

Those Missing.

The list of those missing, corrected early this afternoon, is as follows:

Mrs. Cornelius Ekenbrecker, Orange, N. J.

Dr. Livingston Bishop, Philadelphia, Pa.

Mrs. Branting, Philadelphia, sister of Dr. Bishop.

Miss Anna Milbank, 311 West 49th street, New York city.

Mrs. Henrietta Ficken, Mohawk Hotel, Brooklyn.

Mrs. R. T. Hennessy, 124 Convent street, New York city.

Mr. and Mrs. Richard Engle, Brooklyn.

Ernest Poetzsch, 474 Fourth street, Brooklyn.

Miss H. E. Beardsley, Watertown, Conn.

Herbert L. Beardsley, Watertown, Conn.

Kate Thomas, address unknown.

Florence Monroe, Haines Falls.

Mary Holmes, Kaaterskill Junction.

C. Stryker, Hunter.

Mrs. Isabella Brooks, The Bronx.

Billy De Varman, Mrs. Brooks's grandson.

Mrs. Erdell, wife of the chef, address unknown.

Stryker the Hero.

From several eye witnesses to the fire came stories of heroism during the brief time between the discovery of the fire by the night watchman and the time the building was a seething mass of flames. Carl Stryker, a native of Hunter and night watchman at the hotel, stands out as the hero of the tragedy. As soon as he discovered the fire he went from room to room endeavoring to wake the guests. Then as the situation became still more critical he endeavored to pilot the guests to safety.

Law Seen Carrying Woman.

According to the story of one eye witness Stryker was last seen trying to carry a woman to safety. On reaching the middle of the inn it is claimed that the floor under him caved in and he fell into the debris. His body has not been recovered but rescuers thought that they knew where it was and were going to try and recover it today. Stryker was about 25 years old and leaves an invalid mother who has not yet been notified of his death.

Brooklyn Woman Caught.

There were many anxious people combing the surrounding territory all day Wednesday hunting for relatives. One of these persons was Mrs. Edward Carter of Brooklyn, who had escaped from the fire with her son, but whose aunt, Mrs. Henrietta Ficken, was apparently caught in the ruins. On hearing the cries of "Are" Mrs. Carter rushed into her aunt's room and awakened the elderly woman, telling her to dress quickly and come downstairs. Mrs. Carter then returned to get her five year old son. She picked him from the bed and opened the doorway in the hall. She was beaten back by dense, acrid smoke. She slammed the door shut and wet a heavy towel, which she wrapped around the boy's head and face.

Mrs. Carter then opened the door and ran to an exit. She was severely burned but after having her burns dressed she started out to hunt for her aunt. All day she combed the surrounding territory but without success. Rescuers believe that the aunt was probably burned to death in the inn.

The Heroine.

According to some reports coming from the scene of the fire, Miss Hannah Hyatt of Flushing, Long Island, was the heroine of the fire. After having been aroused by Stryker it is claimed that she saved the lives of twelve guests who were in an upper hallway unable to find their way out. While the guests were running frantically back and forth, Miss Hyatt remembered an exit and then led the guests to the door. The door had to be forced. In making her own escape Miss Hyatt fell and fractured her ribs.

Origin Unknown.

How the fire started will never be definitely known or exactly where it was first discovered as the night watchman, Mr. Stryker, who was the man to first discover the flames, lost his life in the performance of his duties.

So far it is known the fire started near the servants' quarters occupied by the men toward the northwest end of the building.

Servants Arouse Guests.

As soon as the servants had been notified they immediately started from room to room and from floor to floor awakening the slumbering guests. Their familiarity with the building aided them in moving about from room to room in the smoke filled corridors. Shortly after the fire started the lights went out and the work of rescue went on in the darkness until the flames began to light up the surrounding territory.

By the time the Tannersville fire department had made the journey from Tannersville to Haines Falls and up the mountain side to Twilight Inn, the building was a mass of flames. No attempt was made to save the building, as it was seen to be absolutely impossible. Surrounding buildings were kept wet down and saved with the exception of the one cottage destroyed.

Automobile Burns.

An automobile parked in front of the house was destroyed as was the hotel ice house which adjoined it to the south.

Twilight Inn, built over a quarter of a century ago, was of the usual rustic construction of many mountain homes and was east of the main building. It had a capacity of 120 rooms, many of which were considered a four story building although on the east toward Kaaterskill gorge a sub-basement dropped another story toward the slope of a valley.

The house, which stood near the brink of the gorge, burned like tinder once the flames began to make headway. The fire started on the lower floor and hurried up the stairway, catching the guests as persons on the upper floor opened windows to seek fresh air or means of escape.

Guests Suffocated in Beds.

The opinion of many is that a great deal of the guests were suffocated in their beds as they slept. The smoke filled the rooms and corridors so rapidly that there was every reason to believe that many were overcome as they slept.

Miss Isabelle Carman, 5114 of New York city, conducted the hotel, this being her first season. She is well known in Haines Falls.

SAVE with SAFETY at your Rexall DRUG STORE

New toilet accessories receive as hard usage as the hair brush. It is therefore good judgment to buy

A Good Hair Brush

Hand-drawn bristles give the best service. That's the kind you will find in all our best hair brushes.

The bristles in our brushes are selected for quality and there is a wide variety of styles to select from. It will pay you to come in and inspect this stock. The goods are made especially for us. We guarantee them to give satisfaction.

Farmer-Railway Conference

Albany, July 15. Leading farmers of the state and railway officials will meet here tomorrow at the Hotel Ten Eyck for a farmer-railway conference called by the New York State Farm Bureau Federation. The conference will begin with a luncheon at 12:30 standard time.

Each railway serving New York state will be represented at the conference as well as officers of the big farm organization and farm bureau members.

The conference which is an annual affair is called to provide opportunity for the farmers to present their transportation problems to the railway men.

Peter C. Ten Eyck of this city, president of the State Farm Bureau Federation, will preside.

Farmers, as a class, are the biggest customer of the railroads. As individuals, however, they lack the means of representation which great industries have. To fill this need the Farm Bureau maintains a traffic division in charge of E. V. Titus of Glen Cove, New York, which gives service on railway matters to any Farm Bureau member and represents individuals and groups in dealing with the carriers. The annual conference, according to Mr. Ten Eyck, serves as a clearing house for transportation problems and has in the past three years been the means of clearing up many disputed points.

World's Noisiest Place

There is at least one place in the world that is even noisier than New York city's busiest street intersection, and that place is Niagara falls.

Recent test made with an audiometer, a new noise-measuring instrument perfected by the Bell telephone laboratories, showed that the tumult of the cataract at the mouth of the Falls of the Winds would smother the roar and clatter of trains and cars at the intersection of Sixth Avenue, Broadway and Thirty-fourth street.

Niagara's noise measured 70 units, while the best that busiest spot in the metropolis could do was 55.—Popular Science Monthly.

Business Proposition

As Rastus was reading the sport news in the paper he was interrupted by his husky wife, thus: "Listen, heah, vo! Ah didn't buy you dat paper for entertainment. Jest confine yourself to dem help wanted ads, niggah."

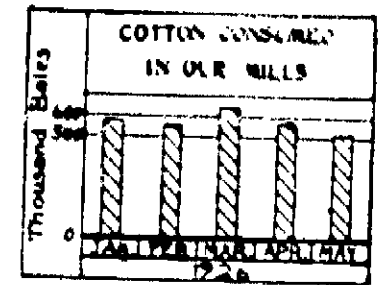

HAD PINK EYE

Lavoptik Drove It Away

"My husband had red, swollen eyes that mattered so much he had to use hot water to open them. LAVOPTIK helped at once. I use it right along for the children's eyes."—Mrs. M. Weske.

LAVOPTIK cools and strengthens tired and weak eyes. Stops eye pains and inflammation. Connelly Drug Co.

ANOTHER COTTON TRADE RECORD

Habers Park, Mass. July 15. (Special.)—Former U. S. Senator Henry F. Lippitt of N. H. has now added to the collection of cotton trade records that have been produced of late in an attempt to live up to the cotton mills' specialty of New England. Senator Lippitt suggests a lawful stabilization of both cotton production and cotton prices.

At the same time, he draws our attention to the obvious fact that it is neither possible nor desirable to entirely shut out price fluctuations.

The amount of cotton consumed in our mills reached the highest figure—615 thousand bales—during the month of March this year. The low mark for the first 5 months of 1926 was 517 thousand bales in May. It is more significant when we note that the month of April was quite a bit below the March figure too.

FIFTH BIRNENWATER

Fifth Birnewater, July 15.—Mr. and Mrs. John Russell, Roy Myers and Mrs. Madeline Montgomery of New Jersey spent Sunday evening with Mr. and Mrs. DeWitt Davenport.

John Nelson, of Rose-Gorman-Rose, and Edward Franks, of Scranton Lace Company, called on Mr. and Mrs. Jacob Freer last Wednesday evening.

Mr. and Mrs. James Castor called on Mr. and Mrs. Ewald Bembeck, Saturday evening.

Several from this place attended the movies at Rosendale Sunday night.

Miss Mary Deltz has returned to her work in Kingston after a week's vacation.

Mrs. Walter Freer is greatly improved.

Stanley Jordan is spending his nights this week at his home here, his work being near enough to permit him commuting.

Floyd Deltz called on Mr. and Mrs. Walter Freer Tuesday evening.

Cool weather was appreciated very much after the terribly hot days last week. The rain which fell Tuesday afternoon was also welcome as dusters and springs were going dry, too.

Mrs. DeWitt Davenport spent Thursday with her brother, James Duffy, and family in Kingston.

Mrs. Silas Castor and daughter, Christina, spent Friday afternoon in Kingston.

Mrs. Nelson has opened up her summer home, "Maple Rest", and will spend the summer here.

Stanley Jordan of Whiteport was a business caller here Monday.

Walter Freer called and spent Sunday with his sister, Mrs. Fred Booth, at Fourth Birnewater. While there he also called on his brother, Myron Freer.

Ever since she was fifteen, Esther Kaplan, twenty-two, struggled to enter the United States to join her parents, who were naturalized. Injuries resulting from a sabre thrust in a pogrom in Ukrania kept her out. The Government finally tempers rules with mercy, and she was allowed to land in New York.

(International Newsweek)

Measrs. Carl Kallop and James Locke of Kingston called on Jacob Freer Tuesday evening.

Mrs. Fred Markle called on Mrs. DeWitt Davenport last Thursday afternoon.

"The Rambler Cottage" is a beautiful sight at this time, being covered on the front porch with beautiful red ramblers.

Mr. and Mrs. Freeman Keator called on Mrs. DeWitt Davenport Sunday afternoon.

Motorists Who Did Not Believe There Could Be Such a Difference In Gasoline Have Become Soundly Convinced

Keystone KNO KNOCK Gasoline

Is the Most Powerful, Most Economical, Most Carbon-Free Gas on the Market at no extra cost. Keystone Kno Knock Has Established Its Superiority—This ideal, pure, high test Gasoline

Flows From Each Keystone Station Pump

You don't have to ask for it, or pay extra for it—just drive up to a Keystone Pump, give this gas a fair trial and you, too, will become a confirmed user of this efficient-combustion, powerful, carbon-free gas.

Carbon-Free Gas

Science has spent millions of dollars in perfecting the refining process by which we now offer you Keystone Kno-Knock Gasoline. This latest improved process produces a perfect, non-carbon forming fuel. No dope is added; it is not required.

USE
VELVO Motor Oil
WITH

Keystone
Kno Knock Gasoline

It's a perfect power producing, carbon eliminating combination.

No Extra Cost

Because of our enormous storage and handling facilities, we are enabled to supply you with this superior Kno-Knock Gasoline at no increase in price. This enormous storage, by the way, also assures perpetual uniformity of Keystone Kno-Knock Gasoline, wherever you may buy it.

Make This Test for One Week

Make up your mind to try Keystone Kno-Knock Gasoline exclusively for one week. (Keystone pumps are everywhere). The first tank full will make itself noticed by its superior performance. Experience for yourself the thrill of making hills on high you formerly had to "shift for." Keep a record and see how many more miles you get per gallon. Note the smooth running and absence of knocks. We stake our hard-earned reputation that you will note the difference before the week is up.

Every Keystone Pump Yields "KNO KNOCK" Gasoline

Meet to Discuss Fake Advertising

This evening at 7:30 a joint meeting of members of the Chamber of Commerce and the Merchants' Credit Association will be held in the Chamber of Commerce rooms to discuss various forms of fake advertising. The meeting will be in the form of a smoker and anyone interested is invited to attend.

Newburgh Cops Expect Trophy

The Newburgh News has offered a trophy for the winning team of the Newburgh, Kingston and Newburgh police forces. The trophy will be awarded to the team which will be awarded to them and the trophy will be awarded to them and the trophy will be awarded to them.

Byrd Says Peary Reached Pole

Winchester, Va., July 15.—"Captain Larsen must have been misled," Admiral Peary did reach the north pole and planted the American flag there, and one flag is enough." This statement was made today by Commander Richard E. Byrd, the first man to fly across the top of the world, in reply to Oslo dispatches quoting Captain Larsen as saying that Peary never reached the pole, and that the Norwegian flag was first at both poles. Larsen was again Roald Amundsen's first assistant on his recent flight. Inasmuch as the American flag already had been planted at the pole, he said he did not drop another flag "out of respect to the achievement of Admiral Peary."

Power House Men Strike

New York, July 15.—Sixty-two power house men from one Interborough plant today walked into the headquarters and signed up in the motormen and switchmen walked out more than a week in addition to the men's ranks in the number of strikers from the plant to 106. The strikers claimed that forty of their comrades would not report for work on the midnight shift. When informed of the addition to the ranks of the strikers General Daniel Quackenbush of the subway agency said: "They must have been intimidated. Unions is too mild a word. If it is true and is continued, I will act to the criminal law and have men responsible arrested for interference with labor." Trains continued on their half schedule today, with no apparent hitch in operation except for a minute tie-up on the East Side during the rush hour caused by technical trouble.

Date Set for Big Jewish Benefit

Sunday, July 25, is the day the Kingston Theatre the place, 11.7 and 9 p. m. the time set for a benefit performance arranged by the local committee of the Jewish Campaign to raise the sum of the quota of \$15,000 for the city of Kingston. Walter Reade very generously offered the use of the theatre free of all expense for a day or for any other day that will be decided upon, and the committee is working hard to make the event a brilliant success, and thus help up the campaign in a fitting manner. The committee urges that the date be remembered, and arrangements made to attend, as good pictures will be shown and added attractions promised.

AMERICAN LEGION POST AND AUXILIARY MEETINGS.

The regular monthly meetings of American Legion Post No. 139, American Legion Post No. 139, Auxiliary No. 139, and the Ladies' Auxiliary will take place at the American Legion Memorial Building, West Main Street, Friday night at 8 o'clock, followed by a social hour. Visitors to state conventions will be welcomed and other important business will be transacted. Members of Kingston Post are urged to be present and to take a part in the work "For God and Country." World War veterans who are not members are cordially invited to come and see how the Legion works.

Rev. Henry W. Brink of Tompkins County is the guest of the church of St. John's, Kingston, on July 25. It is expected that Rev. O. A. Allen of Schoharie will be the preacher.

Can't Use Hatchet To Separate Evil

Good and Evil Not Separated That Way, Father O'Reilly Tells Roman Catholics—Prevents the Good and Cures the Evil.

The Rotary Club luncheon this week drew an unusually large attendance of Roman Catholics from far and near. Many visitors being present. Charles Ramsey and the Rev. Dr. Bishop of the home club were welcomed after a long absence.

The speaker was the Rev. Francis O'Reilly of St. Peter's Church, Rosendale, who after a brief and witty review of the glories of Rome, past and present, spoke of the great lack of logical thought, dogma, and superstition, the evils and the necessity for taking thought and dropping the back to better things. In this regard, he said, there is a great need for a middle course to be adopted by the better element and this is the basis of the Rotary Club. The speaker, practical and well informed, was well received and his address was well received.

better, respect one another, even though they differ and turn on the big things in life. After the war the whole world broke down, but as in 1918, it does after the conflict. It is an old story, and we are all in it. It is a middle course and the necessity for taking thought and dropping the back to better things. In this regard, he said, there is a great need for a middle course to be adopted by the better element and this is the basis of the Rotary Club. The speaker, practical and well informed, was well received and his address was well received.

no fanatic without sincerity. The evil is that he is on the side of a question early in the day and the controversy ended. We cannot separate good from evil with a hatchet, for in many matters, good and evil are intertwined. But we may discern the good and strengthen it. At the same time seeking to eliminate the evil. We can swap thoughts and help to preserve the good and curtail the evil. We need a sympathetic regard for others and we need all this translated into action. From the address it was apparent that Father O'Reilly's address was greatly appreciated by the Roman Catholics.

EPWORTH LEAGUES ATTEND CONFERENCE
From July 3 to July 12, inclusive, there was held at Carmel, Putnam County, an Epworth League Institute composed of some 100 students from the various leagues of this section. The institute was attended by eight Kingston people from the Kingston Avenue M. E. Church, including Mrs. Secor, a member of the Institute faculty. The Misses Mildred Ostrander, Dorothy Storms, Dorothy Hyatt, Evelyn Lasher and Messrs. Ralph DeGraff, Arthur Chipp, Kenneth Flatter and Rodney Chipp, the two latter being members of the class in Christian citizenship, which was taught by Chester Smith of Poughkeepsie, a former president of the Laymen's Association of the Methodist Church. Rodney Chipp was secretary of this class and a member of the committee which prepared the Christian Citizenship Creed. The chairman of the committee, Dr. Frank Palmer of Catskill, president of the Catskill Epworth League.

KINGSTON, N. Y., JULY 15, 1926.

TAX REDUCTION AND ASSETS.

Income tax receipts for the second quarter have exceeded all expectations, and in spite of the recent slash in rates, indications are that total collections for the first half of 1926, will run well over the amount collected for the same period in 1925. The old theory of "soaking the rich man" to raise taxes, has been pretty thoroughly knocked in the head. In fact, a tax policy that soaks either the rich man or poor man, big industry or small industry, will dry up the sources of tax revenue—namely taxable property and productive enterprises.

Every city, county and state can profit by the object lesson furnished by the reductions in federal income taxes. If the state and local taxing authorities and public officials would devote their energies to finding ways and means to reduce taxes, instead of inventing new methods of taxation, local business in every community would be greatly benefited. New developments with increasing taxable assets would furnish new sources from which to secure more tax revenue.

Under our present system of higher and higher taxes and more and more bureaus, commissions, state undertakings and interference with private business, thousands of investors prefer to keep their money in tax-exempt government bonds. This removes billions of dollars from productive enterprise and the tax rolls, and piles up the burden on remaining taxable property, which consists chiefly of farms, homes and employing industries.

PRESENT AREA OF SLAVERY.

Great Britain put an end to slavery in its dominions in 1833 and the United States followed in 1865. Since the second great abolition it has been widely supposed by Americans that the institution was dead throughout the world, but this is a great mistake. Even as late as 1926 the world's area of slavery is still large, as is shown by the report of the Commission of Slavery instituted by the League of Nations, which was recently presented to the League Council for consideration and action.

According to this report, compiled during nearly two years of investigation, there are still nineteen areas in Europe, Asia and Africa where human bondage exists and slave markets are active. The regions named are Liberia, the Philippines, Abyssinia, Thibet, Afghanistan, Hejaz, Morocco, Tripoli, Angola, Mozambique, Nepal, the Libyan Desert, Rio d'Oro, China, Arabia, Egypt, the Sudan, Eretria, and French, British and Italian Somaliland. Slavery in India and the Dutch East Indies is also cited.

Slavery in the Philippines, which are under our flag, is a matter of special interest to Americans. We also have a traditional interest in Liberia, which was settled by emancipated negroes from the United States and is still under the control of their descendants. The existence of slavery anywhere is a shock to American sentiment.

More than 40,000 miles of highways will be paved this year, after which the mileage of hard-surfaced roads in the United States will be in excess of 500,000. This is twice the improved road mileage of ten years ago, says the New York Commercial. Standards of living cannot be raised nor industrial progress made in the mud. But we are rapidly approaching the time when the line of measurement of our roads will not be as important as width and load-carrying capacity. If every state in the union was honeycombed with paved highways, it would be a number of years before we would actually feel the need for increased road width. But all states are not, nor is there any immediate prospect of their reaching that point. This results in forcing the constantly increasing motor traffic on to the existing stretches of pavement, with congestion, delay, accidents and rapid highway depreciation as a result.

R. S. Lovett, Chairman of the Board of the Union Pacific, said before the House Interstate Commerce Commission Committee that the savings from railroad mergers will not justify a decrease in rates. The savings of such savings have been popularly exaggerated, he said. What the railroads really expect to accomplish by mergers, is better service, rather than lower rates. Incidentally, better service is a saving in time, in transportation loss, in the interest on equipment that might be used instead of duplicated and idle part of the time.

abilities of such savings have been popularly exaggerated, he said. What the railroads really expect to accomplish by mergers, is better service, rather than lower rates. Incidentally, better service is a saving in time, in transportation loss, in the interest on equipment that might be used instead of duplicated and idle part of the time.

Detroit is to get ahead of New York through the erection of an office building 873 feet high, its 81 stories reaching up even above the highest pinnacle of the Woolworth building. The automobile metropolis is determined to have "the biggest in the world."

That Body of Yours

By James W. Barton, M. D.

(Registered in accordance with the Copyright Act.)

WHAT ABOUT FASTING?

Some months ago the newspapers told us of a man who had succeeded in fasting for forty-four days, living upon nothing but water.

About the same time a titled personage was undergoing a fast of almost the same duration, but was taking fruit juices only, to sustain her strength.

Now the idea of fasting for fasting's sake is unwise and dangerous, but the idea of a fast for health's sake is a different matter entirely.

Your family physician will tell you that when you have that "fed up" feeling, loss of appetite, tired of everything, constipated, and so forth, that a fast of from 24 to 48 hours would be the best possible treatment for you. Practically everybody can stand a two to three-day fast by drinking a little water from time to time.

However, there is a simple method of gradually ridding your system of poisonous wastes, and that is by following the example of the titled personage mentioned above. That is to do without solid food for a few days, taking nothing but the juices of fruits such as apples, sweet oranges, pears, pineapples, and stewed prunes. One quart of these juices and one quart of water daily, would be about right for the average individual.

These fruit juices will usually keep the intestine active. An enema should be taken any day the intestine remains inactive.

A week of the above treatment should about straighten out your system for a fresh start.

If a longer treatment is desired then the fruit juice can be cut down somewhat, and "pot licker," that is the juices from vegetables, can be used for a few days.

Then cereals with the least possible amount of milk and sugar should be used, and finally you can come back to the regular food.

The above course in diet should extend over two to three weeks. Remember it is unwise to try the fasting, taking only water, for a period of more than three days, unless under the care of a physician.

The shock is too much for some systems, and an anaemic condition may ensue that may take months to correct.

However this matter of fasting brings home to us the old lesson that we are eating too much for the amount of work we do. The old advice that we should "eat our bread by the sweat of the brow" was never so applicable as at present.

So don't hesitate to do without food for a day or two. It will help you nine times out of ten. If you are not quite up to the mark.

An extra two or three days with fruit juices only will make the "cure" more permanent.

TWENTY AND TEN YEARS AGO.

July 15, 1906.—Miss Josephine Scitelle and Joseph Naccarato married.

Miss Ada M. Michel of Saugerties, formerly of Kingston and Elmer A. Thayer of Kinderhook married.

July 15, 1916.—First Lieutenant Girard L. McEntee promoted to rank as captain by President Wilson.

Max Hazen purchased the Mansion House of Jack Abramovich of Newark, N. J.

Thomas Oulton of Schenectady, formerly of Kingston, and Miss Leatha Sturdevant of Corinth married at Schenectady.

Charles Angerthaber of New York, a summer visitor at Esopus, badly injured in fall from a cherry tree.

WHITFIELD.

Whitfield, July 15.—Mrs. L. Quick, Miss Margaret Barley and friends enjoyed an auto ride to Norfolk, Conn., recently.

A great many city people are spending their vacation in this beautiful locality.

Mr. and Mrs. Albert Barley entertained Fourth of July guests.

Mrs. L. Quick spent Wednesday in Kingston.

Miss Margaret Barley is spending her vacation at Outlook Mountain.

Miss Sadie Rider entertained her nephew and his friend over the Fourth.

Miss Margaret Barley motored to Ellenville last week accompanied by her aunt, Mrs. L. Quick.

Lord Barker picked cherries for Mrs. L. Quick last week. They were delicious.

Today's Story in New York History

By Frederic A. Godcharles.
(Copyright, 1926, by the Author)

Terrible Scourge of Yellow Fever Claimed Its First Victim July 15, 1795.

The maintenance of sanitary conditions among many people within limited space was not understood in the closing years of the eighteenth century either in Europe or America. The better air and less confined conditions on this side of the Atlantic may have prevented, to some extent, the encroachments of a general epidemic.

Yet, throughout the eighteenth century, during almost every decade, there was a visitation from that dreadful scourge, the smallpox. If possible, a worse and more fatal plague was that of yellow fever; and during the last decade of the century New York, Philadelphia, Boston and other thickly settled places were more than once visited by it.

Yellow fever was first present in New York in 1792, but in the year 1793, it again appeared and carried away General William Malcolm, one of the general officers of the Revolution, and some other prominent citizens; and when Dr. James Tilgham described its symptoms to a number of physicians, they declared that they had never heard of it or seen anything like it.

It did not cause much loss of life in New York, but it created sufficient alarm. For when, in 1793, Philadelphia was visited by a terrible scourge of the fever, the authorities of New York adopted strenuous measures of quarantine against that city. Ships coming there were forbidden to approach nearer than Redhook Island. A day of fasting and prayer was appointed; the proprietors of stage-coaches were requested to cease running. People were warned against entertaining strangers, or buying bedding at auction.

In the year 1795 the scourge came upon New York city with alarming results. The first victim died July 15; he was a cabin-boy aboard a ship coming from Port au Prince, West Indies. The surgeon who attended him died. Then the crew of another vessel was attacked, then a family living on Water street.

By October 6 five hundred and twenty-five persons had died of the dreadful disease. In November the appearance of frost caused it to cease. Governor Jay appointed a day for Thanksgiving. It slew 772 persons. There were several deaths from yellow fever in the following summer, but the scourge did not reach to alarming figures.

The climax of calamity from yellow fever was reached in 1798. This was true not only because it raged worse than at any time before, but because it simultaneously visited Philadelphia, Boston, New London and seventeen other cities along the Atlantic border. Philadelphia was called upon to mourn over nearly three thousand victims in two months.

The epidemic began in New York on July 28 when Melancthon Smith, who had led the Anti-Constitution party until convinced by the arguments of Hamilton, was the first victim. He lived in Front street, on low ground. Everyone who could moved to high ground or fled the city.

The people began to die by the score, the alarm became wild. During August 329 died, on September 1 twenty-three persons died, and during that month the scourge took a toll of 954. When it was all over about the middle of November, 1524 people, out of a population of about fifty thousand, had died of the fever, and this did not include those who died after they fled and were attacked outside the borders of the city.

Out of these evils came a system of underground sewerage in 1795. Yet the plague of 1798 was worse than those previous, and a still more frightful visitation was that of 1822.

In the epidemic of 1823, Mayor Edward Livingston conceived it his duty to remain at his post, superintending the methods of relief, and ministering to the poor of his private means. His visits to infected homes brought him down as one of the victims. His life was spared, and a long career of usefulness and distinction followed. The disease took a toll of 600 persons.

The scourges of 1822 and 1823 were not checked by the arrival of cold weather. Business was entirely suspended, and the distress was beyond description. The city presented the appearance literally of a deserted city—with no sounds save the rumbling of the heaves, as at the dead of night, they passed through the empty streets to collect the tribute of the grave.

Since the latter year only sporadic cases have been known. It has never appeared in the form of an epidemic.

Tomorrow: Wayne Captured Stony Point.

Today's Anniversaries.

1680—Treaty at Esopus.

1772—Clement C. Moore born in New York city. Educator and author; wrote "A Visit from St. Nicholas." Died July 10, 1863.

1791—Benjamin T. Onderdonk born in New York city. Fourth Protestant Episcopal Church Bishop of New York. Died April 20, 1861.

1800—Slater (Brewer) born in Whitestown, N. Y. Chief Justice Supreme Court of Illinois. Died June 27, 1878.

1811—Edward M. Moore born in New Jersey. Distinguished physician of Rochester, N. Y., where he died March 4, 1862.

1814—William of Lund's Lane.

1827—William W. Thayer born

Clothes almost wash themselves

-whiter than you could rub them

THINK of it—you don't even have to be home while Rinso is doing your wash for you!

Say goodbye to the weary hours you formerly spent over the washboard. Just soak and rinse—that's all. You don't even need to boil!

Let Rinso get the clothes whiter than ever. This new granulated laundry soap gently and safely loosens the dirt, so it floats off in the rinsing.

Every week millions of women get their wash whiter this safe "no-work" way. You can, too!

So safe—and so economical

Get Rinso from your grocer. Feel how heavy the package is—you get your full money's worth of this safe granulated laundry soap.

See how it soaks out dirt—how even the most soiled parts need only a gentle rub or two between the fingers.

No need to boil unless you like to; Rinso whitens without boiling—sterilizes, too!

Saves hands from getting washwater; saves clothes from being scrubbed threadbare.

Even in hardest water, Rinso gives creamy, lasting suds. It's all you need on washday; no bar soaps, chips, or powders.

Absolutely safe for your finest linens. Contains no acids, bleaches or harmful chemicals.

Get Rinso today. Two sizes—most women buy the BIG package. For economy and best results, follow easy directions on package.

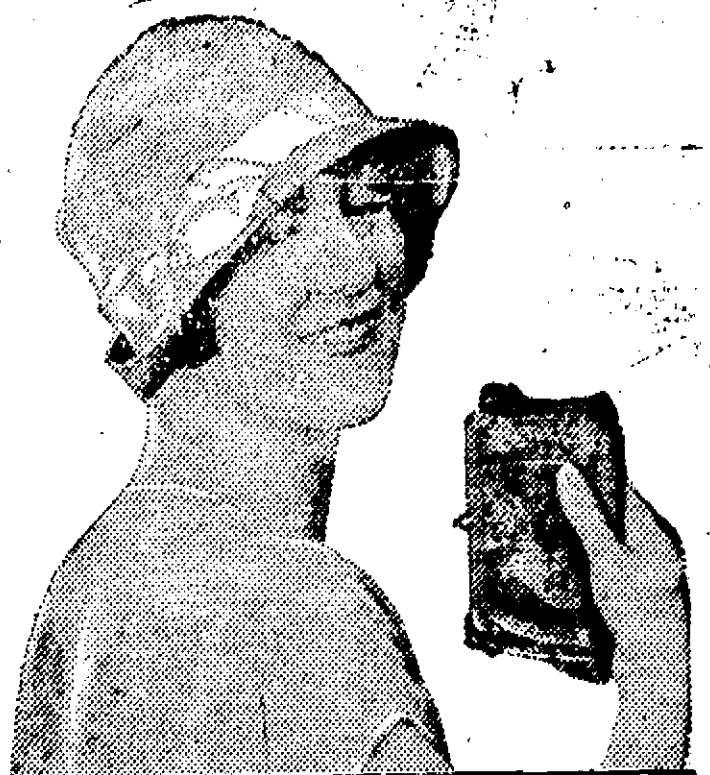

Fine in washers!

Rinso works so wonderfully in washing machines that the makers of 28 leading washers recommend it for safety and for whiter clothes.

Guaranteed by the makers of LUX LEVER BROS. CO.

Rinso

The Granulated Soap—Soaks Clothes Whiter

Mrs. Nellie Bush, 18 Hurley Ave., Says:

Before I used Rinso I always thought that the wash took too much hard work to do at home. But then I saw in the papers how Rinso was making wash-day easy for other women in this city so I decided to try it. It's simply marvelous. Now I just soak the clothes in Rinso suds, then rinse them and my whole week's wash is done without a bit of hard rubbing. Things turn out so white and bright you don't even need to boil the clothes. I tell all my friends about Rinso.

MRS. NELLIE BUSH,
18 Hurley Ave.,
Kingston, N. Y.

Alfords use Rinso. Thousands write us letters like this.

Daddy's Evening Fairy Tale

By MARY GRAHAM BONNER

RED LYNX

"I have two other names which I can use just as well if I want to use them," said the Red Lynx in the zoo.

"The first name I can use is the one I am using now."

"That is the name of Red Lynx."

"Then, too, I am sometimes known as the Bay Lynx, so I could use that name."

"I am also known as the Wildcat, so I could use that name as well."

"Almost any of these names will do, but it is my nature of which I wish to tell you, not of the name I am choosing to use."

"Or rather that isn't so important. I throw in that extra bit of information for good measure, as it were."

"Yes, I want to tell you about my nature and my ways."

"I am wild, I am as wild as can be. In fact I don't think you could find an animal much more dangerous than I am when I choose to be dangerous."

"Have you ever seen a cat's eyes shine out in the dark?"

"Well, they look all right and are all right, because they belong to a tame cat, but can you imagine what they would look like if they looked wild?"

"Well, that is what my eyes look like—wild and angry and as though there was nothing I would not do and

"Sometimes I am Nice."

could not do that was wild. If I wished to do it and felt in the mood for doing it.

"That's the sort of a creature to be, I say."

"Dangerous if necessary, and also dangerous if one wants to be dangerous."

"I'm small. I come from this country, this land of America."

"Sometimes I am nice."

"But I am not boasting of my nice times, for it seems to me anyone, or almost anyone could boast of being nice."

"I'm boasting of the times when I was free and when I frightened people."

"That's what I am boasting of, I, the Bay Lynx, the Red Lynx, the Wildcat."

But the other animals in the zoo grinned and looked at each other and said:

"People usually boast of their good points and of the good deeds they have done, but it takes the Wildcat to boast of the wild things he has done and of his bad qualities."

And the Wildcat, or Bay Lynx, or Red Lynx twisted his whiskers and said:

"I'm myself. That is what I am."

But the Tiger in the lion house did not like the news. Billie Brownsie brought him of the Red Lynx.

"They shouldn't boast too much," said the Tiger.

"Remember I am a greater hunter than the lion who is known as the King of the Beasts."

"Yes, I am a greater hunter when I am free."

"I am wilder than he is, too."

"He is too fond of roaring and boasting when he is free, just as he does here."

"He loves that great voice of his, but I'm the clever, crafty tiger. I am."

"King Lion knows it is true, so he is not saying anything just now."

"But go and tell the Red Lynx that Tiger sends his compliments and says to 'go easy' on the boasting—that he has to remember the tiger who is wilder than the King of the Beasts."

Either Would Do

Bobbie had a new velocipede.

His playmate, George, went over to Bobbie's house early one morning to see if he could come out, but his mother said: "He isn't awake yet."

Whereupon George asked: "Can his velocipede come out?"

Enough

Mother—Pet, what are you thankful for today?

Pet—Oh, I'm thankful daddy gave me \$5 when I didn't see him this morn'g—Vanderbilt Masquerader.

An Easy One

Teacher—Use "center" in a sentence.

Pupil—I knew she was mine the moment I caught her eye.—Some High Standard-Locate.

Can't Serve Two Masters

Teacher—Can you tell me a part of the Bible which forbids a man's having two wives?

Pupil—Yes. "No man can serve two masters."—Brown Jug.

GAS BUGGIES or HEM AND AMY—The Wolf Within

ENAVING WORRIED ONE GASOLINE MAGNATE, ADOLPH GLOBS, INTO OFFERING TO BUY OUT HIS FAKE GAS-SUBSTITUTE, ALEC SMART, WHO BELIEVES THAT COMPETITION IS THE LIFE OF BUSINESS, DECIDES TO SEE WHAT HE CAN DO IN AN OPEN MARKET.

YES, SIR, I'VE HAD LOTS OF EXPERIENCE WORKIN' FOR GASOLINE COMPANIES—I'M STILL ON THE PAYROLL AT PETRIFIED GAS—BUT I HEARD THEY WAS GONNA SELL OUT TO THE GLOBS PEOPLE, SO I DECIDED TO LINE UP A NEW JOB BEFORE I LOST MY OLD ONE—THERE AINT NO SENSE STICKIN' TO A SINKIN' SHIP, CAPTAIN—ISN'T THAT RIGHT?

WHAT YOU SAY ABOUT THE GLOBS COMPANY INTERESTS ME—JUST A MINUTE TILL I SPEAK TO OUR PRESIDENT—HE MAY HAVE A GOOD GA JOB FOR YOU.

YES, SIR, MR. QUID THATS HIM—HE SAYS EVERYBODY AROUND THEIR PLANT KNOWS THEY'RE DICKERING WITH GLOBS—THAT DONT SOUND ANY TOO GOOD FOR US, DOES IT MR. QUID?

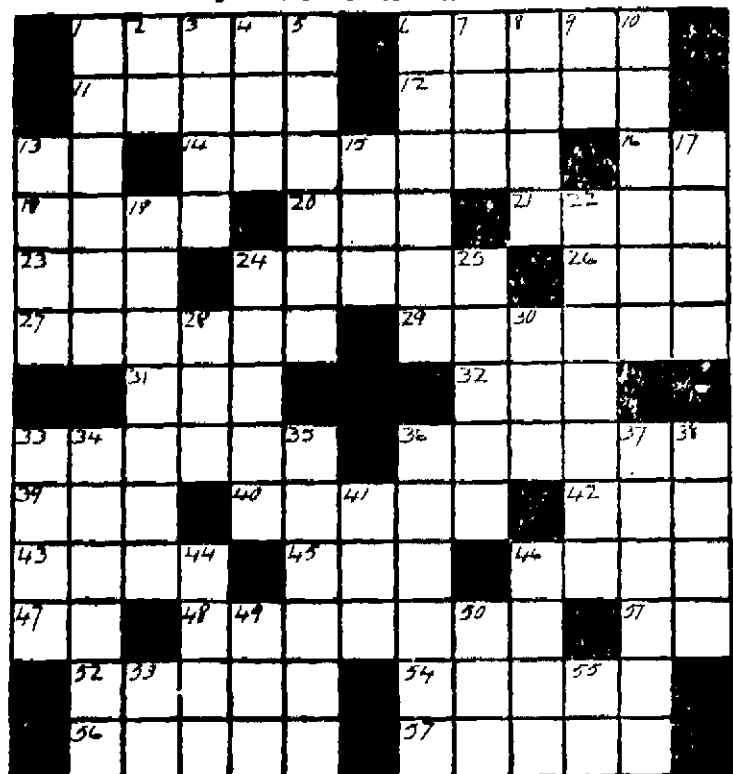

MAYBE THAT PETRIFIED PILL IS THE REAL THING GLOBS CERTAINLY IS NO FOOL—WED BETTER LOOK INTO THIS—PUT THAT BIRD ON THE PAYROLL, AND TELL HIM TO STICK AT HIS OLD JOB AND REPORT TO US ANY MORE DOPE HE HEARS ABOUT THE GLOBS DEAL!

WHAT! HE SAYS, GLOBS IS GONNA BUY OUT PETRIFIED GAS? ARE YOU SURE? WELL, I SAYS I WOULDN'T THROW DOWN A GOOD JOB IF I WASN'T WOULD I? THAT SETTLED IT—I WAS HIRED ON THE SPOT. I'M TO WORK HERE AND REPORT THERE NOW IT'S UP TO YOU TO SEE TO IT I GET WIND OF SOME HOT STUFF, ALEC.

WELL DONE, RUSTY—IT WORKED LIKE A CHARM—NOW WE CAN SIT BACK AND WAIT FOR THE BIDDING CONTEST—THE GLOBS CO. VERSUS THE PETRIFIED GAS CO.

PLUTARCH.

Plutarch, July 15.—Preaching service as usual next Sunday.

Our road commissioner had a force of men fixing the road from Michel's up to Stimatz's corner last week. The road bed has been raised in some places and is much better.

Mr. and Mrs. John Markle and two daughters, Miss Leucilla and Goldie, and Miss Nettie Van Nostrand of Kingston were callers in town Sunday.

Mr. and Mrs. John Vanderlyn and Herman Dayton of Ohioville, called on Mr. and Mrs. H. McCormick on Sunday.

Alexander Stimatz purchased a team of horses in Poughkeepsie on Monday.

Mr. and Mrs. Richard Nicol and son of Astoria and a lady friend spent the week end at the summer camp here.

Edward Benjamin who has been spending a couple of weeks in New York has returned for the rest of the summer.

Miss Beaula Albertson of Highland spent several days with her grandmother, Mrs. Estella Albertson recently.

Mr. and Mrs. Frank Birdsell of New York and Mrs. George Birdsell of Poughkeepsie called on old neighbors and friends last Monday.

Peter Michel is making some improvements to his house. William Tompkins is doing the work.

Real estate agent David Woolley of Milton made a business trip in town on Monday.

Judson Van Wert has sold his farm to Brooklyn parties who have taken possession. Mr. Van Wert and family have bought a place in Centerville and moved there. That is the second farm sold in Plutarch in a short time. There are still others for sale.

STONE RIDGE.

Stone Ridge, July 15.—The following is the program for the Chautauqua for Friday, July 16: Afternoon—Concert by the Plymouth male quartet; lecture by Elmer W. Serl, subject, "Unfilled Corners."

Evening—Lecture, Elmer W. Serl, subject, "The Thinker;" concert by the Plymouth male quartet. The afternoon and evening entertainment will be entirely different.

The meeting of Stone Ridge Grange held Tuesday evening, July 6, was in charge of the home economic committee. This committee was very fortunate in securing some of the members of Lake Katrine Grange who gave a most enjoyable entertainment. The refreshments were in charge of Mr. and Mrs. R. Heizer, host and hostess, Ruth Heizer, Jesse Hunt, Thomas Donnelly, Elizabeth Heizer, Mr. and Mrs. Fred Elmendorf, Mr. and Mrs. Rose Osterhoudt, Mr. and Mrs. Henry Southernland, Mr. and Mrs. James Robinson.

The next Grange meeting will be held on Thursday evening, July 20, instead of Monday evening, on account of the Grange donating the use of the hall for the Chautauqua. The entertainment will be in charge of the over-seer, Wilfred Self. Refreshments in charge of Mr. and Mrs. Herbert Bishop, host and hostess, Mr. and Mrs. K. J. Hines, Mr. and Mrs. Herman Kram, Fessie Kram, Chester Winchell, Mr. and Mrs. Rose Lockwood, Mr. and Mrs. George Weeks, Mr. and Mrs. Henry Winchell.

The regular Grange dance will be held on Thursday evening, July 22, instead of Friday evening. The chance is made necessary on account of the Chautauqua.

Unreasonable Complaint

In condemning the vanity of women, men complain of the one they themselves have kindled.—Lingua.

NEW PALTZ.

New Paltz, July 15.—An automobile accident occurred at Tamney Square, Fourth of July morning when Walter Harp of Lyndhurst, N. J., driving a Maxwell sedan, crashed into a Packard roadster which had stopped on the square to inquire the way from the officer on duty there. One of the passengers of the Maxwell, a girl, who was sitting in the front seat with Harp, was thrown through the wind shield, cutting several veins in her throat and severely injuring her face. She was immediately rushed to the office of Dr. Branner where the wounds in her throat had to be sewed up. All the other occupants of the car escaped injury. The Packard, which suffered no damage, was driven by Percy Herbst of Brooklyn.

Mr. and Mrs. Abram E. Jansen visited Poughkeepsie on Saturday.

Mr. and Mrs. George E. Hasbrouck were in an accident last Saturday night as they were on their way to New Paltz. The accident took place in front of Martin Fan's house, Ohioville. A car that was approaching them at a high rate of speed swerved to their side of the road, took a wheel off of their car and hurried away at full speed. Lawrence Gaffney, Jr., came along in a few minutes and gave them all the assistance possible. No one was injured but Mr. and Mrs. Hasbrouck had the unpleasant experience of going

through two accidents in a very short time.

The proposed Bible Conference which was to have been held in this village August 14-22, has been called off by the United Presbyterian Church Committee on account of their inability to properly advertise the meetings and also to secure the speakers needed for such a conference. The committee hopes to have the conference in New Paltz next year.

Mr. and Mrs. Josiah P. LeFevre called on friends in High Falls on Sunday.

Harry Deyo, formerly of New Paltz and now of the Bell Telephone Company of Newark, N. J., was a week-end guest of Mrs. Gertrude LeFevre on Prospect street.

A son, David Harold, was born to Mr. and Mrs. H. B. MacInnes of Troy, June 29. Mrs. MacInnes was formerly Miss Julia Storr of New Paltz.

Dr. and Mrs. Raymond Jenkins gave a very pleasant party on Thursday evening in honor of Mr. and Mrs. Philip LeFevre of Forest Glen, who will sail for China on July 23.

The baseball game between the Col. Bradley Hose Company of Walden and the New Paltz Fire Department on Thursday evening was one of the best games played here this season. The score was 2-1 in favor of Walden.

Mr. and Mrs. Walter Gladdings and family of Richmond Hill are visiting Mrs. Gladdings' brothers at the Ostrander Farm near Ireland Corners.

Dr. Clapp will preach his last sermon for the summer on July 18, after which he will be absent on his vacation for at least four Sundays.

Mr. Clapp and his son, Theodore, will motor to North Carolina, Dr. Clapp's native state. The pulpit, however, will be supplied each Sunday.

SOUTH RONDOUT.

South Rondout, July 15.—The Sunday school held their annual picnic on the church lawn on Wednesday afternoon and evening. It was a success although so many of the children have the whooping cough.

There will be a meeting of the official board after the prayer meeting on Thursday evening.

Edwin Dunn of Hoboken spent the Fourth with his parents, Mr. and Mrs. George Dunn.

Mrs. Garry Dunn of New York is spending some time with Mr. and Mrs. George Dunn.

Dr. Kinney of New York spent the week end and the Fourth with Mr. and Mrs. George Dunn.

Mrs. Richard Terpenning and son, Donald, of Sleightsburg attended the Sunday school picnic.

Mr. and Mrs. John Wilson and daughter, Doris, are spending some time in Hoboken with Mr. and Mrs. Frank Spinneweaver.

Mrs. Fred Becker and son, Wallace, are visiting her mother, Mrs. Felice in Jersey City.

Wallace Boyce of New York city spent Sunday with his family who are stopping with Mrs. Isaac Hotelling for the summer.

Mrs. Peter Schrieber and Margaret Mauer are spending the week in Hoboken with Mrs. Frank O'Neill.

Mrs. Wallace Schriver of New York is visiting her mother, Mrs. Elizabeth Kellerman.

Mrs. Austin Grimes and children of Kingston spent Sunday with her parents, Mr. and Mrs. John Schrieber.

Dr. and Mrs. Conda Lawing children of West New York Sunday with her mother, Kathryn Clair.

Mrs. Andrew Anderson and Walter and Raymond attended Lutheran picnic at Kingston Wednesday.

Mrs. Caroline Knudson and Madson of Brooklyn have returned home after spending a few days with Mr. and Mrs. Knud Olsen.

Miss Frances Spinneweaver Hoboken is visiting Mr. and Charles Becker.

Mr. and Mrs. Peter Ahl children of Kingston called on parents Mr. and Mrs. John Sch on Sunday.

The Rev. Mr. Coddington of M. E. Church of Saugerties preached on Sunday evening in exchange with the local pastor.

Mrs. Julia Malmes and son, H. and daughter, Anna, and Stephen Griffing motored to Haines River on Sunday and called on Mr. Mrs. Edwin Haines at The Vista.

Cotton a True "Mine"

If you want to find an extensive glomeration of minerals, pick up a ton plant. It contains iron, phosphorus, magnesium, calcium, potassium, sodium, and Doctor McElhargue of Kentucky agricultural experiment station has just shown the amount of per, manganese and zinc.

ALABAMA INDIANS IN LAST OUTPOST

Remnants of Ancient Tribe Wasting Away in Texas Piney Woods.

Dallas, Tex.—Deep in the piney woods of east Texas live a people who have come down from the dim antiquity of early America. They are the Alabama Indians, an isolated, orphan tribe.

Strange to the ways of modern life and virtually without the protection of the great white father at Washington, they are rapidly going the way of the vanishing race. Through a century, poverty and struggle have been their lot, but ever a gentle people, they have uttered no complaint. Congress Reminded of Tribe.

Their condition has been brought to the attention of congress by Representative Briggs of Texas, who asked \$125,000 to provide them with land, live stock and equipment.

In the heart of the woods they live a strange and detached life. When De Soto sought the city of gold in America's wilds, the Alabamians even then were an ancient nation. Two of De Soto's chronicles mention them.

In the early part of the eighteenth century, the French found these Indians in what is now Alabama and became their fast friends. The Indians, driven by approaching civilization and a desire for more hunting ground, appeared in Texas early in the nineteenth century. They built Fenced in Village, and there one of their greatest white friends, Gen. Sam Houston, found them in 1854. Through his influence the Texas legislature gave them two sections of land which they occupy to this day.

They live in what is called "The Village" in the southern corner of Polk county. Selected for hunting purposes, the land is not adapted to agriculture, and since the game is almost gone, their livelihood is scant. General Houston advised them to remain in Texas, so when the government offered to remove them to a reservation they declined.

Children Speak English.

The tribe today numbers about 250. Inter-marriage and lack of medical knowledge have weakened them. They have few modern implements, and know little about scientific agriculture. Among themselves they speak only the musical Alabama tongue. It is against their policy for the women to speak English, but the children are learning the language rapidly.

They do not mingle with whites socially and are virtually unnoticed by civil authority. Divorces are unknown. They have only two punishments for crime, banishment and death, but these have not been used in a generation.

The tribe's principal link with civilization is a church and school conducted by missionaries supported by the Southern Presbyterian church.

The Indians adopted American clothes some years back. Their houses are log and frame, built by themselves. The village is really a collection of small houses in the woods, without streets. Birds, animals and trees are the community's chief interests.

Miniature Pile Driver Tests Safety of Match

New York.—A match is a match to most everyone, but to the expert there is a wide difference between a safe and dangerous match.

At the underwriters' laboratories here, where tests are made of thousands of devices and materials to prevent fires, a miniature pile driver daily pounds away on matches.

The little weight falls on the side of the match head. If the match blazes it is reported unsafe. The requirement is that it must be lighted only by friction at the end of the head.

Another device tests the strength of the match stick, to make sure it is strong enough to stand ordinary rough usage. Else striking may break the stick and cause the burning head to fall. It also is determined whether the match will burn its complete length without breaking off and if breaking off the spark dies immediately.

Matches and mice often appear together in stories of fires. Engineers decided to make a test. Several mice were put in a cage and given nothing to eat but matches. The mice did not gnaw the matches and finally had to be released before they starved to death.

Chinese Pheasant Hen and Chicks Stop Traffic

Portland, Ore.—A Chinese pheasant hen, in its quest for the city, with her brood numbering no fewer than 15 fluffy chicks, recently held up traffic on a busy street intersection. There was no officer on the corner but the hen decided to cross anyway.

Some youth, who prefer to remain anonymous, stood up the situation and ducking himself in the center halted the traffic. Many drivers entered into the spirit of the situation, left their machines and aided in rounding up the clucking hen and her 12 babies. The brood was turned over to the Oregon Humane society.

Tree Given Milk

New Haven, Conn.—A "cow-tree" that gives milk was discovered by Fred. Samuel J. Bower of the Yale school of forestry on his recent trip to British Honduras and Guatemala.

It appears that in moments of tension women are much more cool than men. In America before a woman shoots her husband she always says, "One lump or two?"

Secretary Hoover says there are now 500 stations broadcasting and that 250 more want to start. We had them all on our set the other night—all at once.

"Duty calls a man to church on Sundays, and pleasure urges him to go fishing," says a Vermont paper. And Monday morning he shows up all sunburned.

Many a sixteen-year-old boy is sitting up late at night trying to teach ma and pa the Charleston.

Strong prejudices are often found in a weak person.

"Doctor, don't you find it inconvenient to travel way out here in the country to see me?"

"Oh, no; I have another patient near here, so I kill two birds with one stone."

In Jail.

He sang in a sylvan park. In the dark hours of morning he sang. Like the thrill of a lark his voice in a clear tremolo rang.

Of course, he was pinched, and thrown in jail.

And held in a dungeon dark.

For the judge merely said, when told his tale.

"You may be a lark in the park in the dark, but you're here just a jailbird in jail."

There are people who never care for music except when they can play first fiddle.

In many homes no radio is needed. Either the husband or wife is in the air most of the time.

Freddie Jones, in company with his father, who was a widower, was visiting the beautiful young widow, Mrs. Brown. Everything went along nicely until the young hopeful broke in with the question:

"Do any of your cows give milk, Mrs. Brown?"

"Why, my dear child, I don't have any cattle," she replied.

"You don't?" he answered in surprise. "Why, dad said you had two mighty fine calves."

A Dumbell Poem.

A billy-goat swallowed a rabbit. And Pat was heard to utter: "Yes, I'll have no bread today, 'Cause there's a hare in the butter."

Character is what you are if you can drive with one hand but don't.

What we need now, is a magazine full of articles showing how famous men got poor.

"This floor is terribly crowded," said the gasping man as he blew his handkerchief on somebody else's nose.

"Johnny, go and see if the chorus are all ready. It's about time to ring up the curtain."

"They are all ready, sir; every girl's undressed."

The governor of Michigan wants to serve the balance of the prison sentence of the former governor of Indiana. What's the matter with Michigan, haven't they got any good jails up there?

Once we called them pests. Now they are known as go-getters.

lary. Captain Cline makes this as a donation for the hospital and the entire proceeds will be in the hands of the Hospital Auxiliary. Captain Cline is a member of the Salmagundi Club and National Arts Club of New York, the Arts Club and Washington Society of Artists of Washington. He is a pupil of the Corcoran Art School, Art Student League, New York, and George Inness, Jr. His pictures are in Los Angeles Museum, Peabody Institute, Baltimore, and Rutgers College, New Brunswick, N. J.

A Greenfield bus, owned by Harris Kass, and operated by Lloyd Merritt, is in operation between Kass's store in Greenfield, and the O. & W. station in Ellenville. It will pursue this schedule for a few weeks; it is announced, before starting its Ellenville-Liberty-Monkton daily route.

Captain Fox, of the State Troopers, and Fire Troopers from the neighboring districts met in Ellenville Wednesday night last week in a little informal convention.

Mr. and Mrs. Fred Booth and daughter, Kathryn, spent last week in town visiting at the home of Mr. Booth's parents, Mr. and Mrs. N. J. Mack Rock, of Spring street.

Mrs. Charles H. Benedict and daughters, Helen and Lucille, were in Ellenville over the week end in account of the illness of Mrs. Benedict's mother, Mrs. L. B. Benedict, Mr. and Mrs. P. Sherry and daughter, Kathryn, and Miss Margaret Sherry, of East Orange, visited in town on Sunday.

Mr. and Mrs. Edward Mesle and son, Jack, and Mr. and Mrs. Bedell of New York city, who are spending some time at Bloomingburg, visited at the Johnson house on Bloomer street last Sunday. Mr. and Mrs. E. Lord and daughter, Lola, and Mrs. Rolke, of Matamoras, Pa., also called at the home of Otis Johnson, Sunday afternoon.

Miss Eleanor Rose of New York spent the week end at the home of her parents, Mr. and Mrs. W. C. Rose of South Main street.

ALLABEN.

Allaben, July 15.—Mrs. Fails and Mrs. Willis Dunn of New York are spending two weeks at the Allaben Hotel.

Mr. and Mrs. Marshall Knight have returned to their home in Washington after spending three weeks in Shandaken.

Mrs. G. F. Van Keuren and Mabel A. Van Keuren were in Kingston Monday, guests of Mr. and Mrs. James Van Keuren.

The Bales Colony have added two more busboys which are already being used for the summer.

The Jones ten room is a very attractive place. All kinds of refreshments are served to tourists.

Mrs. Philip Elting of Kingston called on Mrs. G. F. Van Keuren last week, Thursday evening.

Miss Agnes Foughy was in New York shopping a few days last week.

Mr. and Mrs. Howard Brundage are at their summer home in Jack Hollow.

Mr. and Mrs. A. Freeman have been entertaining Mrs. Freeman's parents of Brooklyn a few weeks. Mr. and Mrs. A. Freeman have opened their house for tourists and summer boarders.

Mr. and Mrs. James Utter of Wallingford, Conn., are guests of Mr. and Mrs. Charles Blackley.

Mrs. E. J. Colwell and family were guests of her sister, Mrs. Charles Colwell, in Kingston Tuesday.

Miss Virginia Countryman of Kingston is a guest of Mr. and Mrs. E. J. Colwell, Jr.

Mrs. B. E. East of Broad Street Hollow was an Allaben visitor Tuesday.

F. Burke of Gilboa precinct was at his home the week end.

The Phoenixia M. E. Church will hold in the Odd Fellows' Hall in Phoenixia Thursday afternoon and evening, August 3. The Allaben ladies who have been working for Mrs. G. F. Van Keuren's table place get your articles ready by that time and send them to the home of Mrs. Van Keuren, Allaben, N. Y.

Mr. and Mrs. Benjamin Guinick of Phoenixia were guests of Mr. and Mrs. G. H. Guinick Tuesday evening.

NEXT TUESDAY

EMILY POST

IN HER BOOK "ETIQUETTE," which is the unquestioned authority on correct table appointments and usage, Mrs. Post says:

"A water glass standing alone at each place makes a meager and untrimmed-looking table." As a beverage Mrs. Post suggests ginger ale either alone or combined with other beverages or fruit juices.

When asked which ginger ale she considered best, Mrs. Post unhesitatingly said Clicquot Club Pale Dry. She said:

"I think Clicquot Club Pale Dry is much the nicest ginger ale I have ever tasted. It is attractive in color, tempting, sparkling, and delicious in flavor. In fact, it seems to complete the hospitable effect of a perfectly appointed table."

Two flavors to choose from

A drink of most delicate flavor when taken alone, the Pale Dry Clicquot also blends its subtle personality perfectly with other drinks. The Golden Clicquot is of more pronounced flavor, the famous drink that has made ginger ale America's most popular beverage. The Clicquot Club Company, Millis, Massachusetts.

GINGER ALE

TWO FLAVORS: "PALE DRY" AND "GOLDEN"

Home-Seekers Opens New Series

Subscriptions are being received at the office of the Home-Seekers' Co-operative Savings and Loan Association, No. 3 East Strand, for shares in the 51st Series which opens on August 2nd.

Last year the association's assets increased more than \$200,000 and the 50th Series of shares which opened in February comprises more than 220 new accounts.

The Home-Seekers is 37 years old, and like all associations of this kind, is under the supervision of the state banking department and is subjected to a rigid examination every year. It has a reserve fund of over \$22,000 to meet possible losses, and all of its loans are first mortgages on property within a radius of 50 miles of its office. Nothing is safer as an investment than a first mortgage on a home occupied by the owner; therefore the loans of these institutions are the safest form of investment.

The aim of these associations is to teach systematic thrift for a definite object, whether that object be to purchase a home, educate children, provide for old age or other similar ends.

Membership is open to anyone who wishes to accumulate money, and the plan is just as well adapted to their requirements if they wish to accumulate \$1 a month or \$100. Members are required to subscribe for a definite number of shares and pay an entrance fee of 25 cents on each one. Thereafter they must deposit \$1 on each share every month. Dividends are added to the account annually, and in turn earn more dividends. The dividend rate of the Home-Seekers has been six per cent for over ten years. When the account amounts to \$200 per share, the shares have "matured" and the shareholder receives his money. Shares usually mature in about 140 months.

There is no limit to the number of shares a person may hold, and they may be taken on joint account or in trust for children by parents or others. Shares are issued in series, a new series being opened every February and August, but members may join any time by paying back to the opening of the series.

If a shareholder is unable to continue his deposits or requires his money, he may withdraw his account, the association following the practice of paying withdrawals on demand, but full dividends are only paid to members who mature their shares.

All persons interested in becoming members of the association or wishing information about its plan and methods are invited to call at the office.

HIGH WOODS.

High Woods, July 15.—Mr. and Mrs. Charles Lauder, who have been with her mother, Mrs. John Powers, returned to New York Sunday.

Elouise Kuhlwind and a friend spent the week end at her parents' home here. Mr. and Mrs. John Henry of New York, who spent their honeymoon at the Kuhlwind home, returned with them Sunday.

Charles Steele and daughter, Georgetown, of Tuckahoe, spent the week end with his family at their cottage.

Mrs. Anna C. Snyder and Mary J. Carle were guests of their cousin, Mrs. Elvora Lewis, in Saugerties last Thursday.

Mr. and Mrs. George R. Felten, Mr. and Mrs. Arthur Lamb and two sons, Daniel and Arthur, Jr., called at Sauley Felten's Sunday afternoon.

Mrs. L. Finger and granddaughter, and Mrs. Robert Snyder of Mt. Marion were at church services here. The Rev. Mr. Ton of Buffalo occupied the pulpit as a candidate. He gave an interesting sermon from the text John 20:16. The Sunday school missionary collection to be sent to the Arabian fund was \$3.30. Sunday school at 1:30. Church services at 2:30. Everybody welcome.

Mr. and Mrs. B. S. Myer and children and her brother, Clifford Woven, spent Sunday with Mr. Myer's sister, Mrs. William Pollock, and husband in Staatsburgh.

Miss Elsie Van Hovenburgh and two nieces called to see her sister, Euthenia, who is spending the summer at Cyrus Loundenkye's.

Would Be Money in It

If one-half of the world knew how the other half lived, it could pick up a little change by reporting the facts.

Gentle Hint

Robbie had a new velocipede. His playmate George went over next morning and asked if Robbie could come out and play. "I'm sorry," said his mother, "but Robbie is not awake yet."

Whereupon George asked: "Is the velocipede awake yet?"

King in Love?

King Boris, of Bulgaria, left incognito on a tour of Europe, giving rise to reports that he was seeking a royal wife, and other reports that he feared usurpation of his throne by Prince Cyril.

International Newsreel.

Poor Prospect for Mother

Little Walter is a very sympathetic child.

"You're awfully tired of keeping house, aren't you, mother?" he said the other day when she looked unusually worn.

"Yes, dear."

"But there isn't much use in dying and going to heaven, is there? 'Cause you'd have a mansion on your hands then.'"—Boston Transcript.

Electric Service at Pole

The penetration of electric service into the polar region aided both Amundsen and Byrd in their recent successful attempts to fly over the North pole. Electric light furnished at Kings bay, Spitzbergen, enabled the crews of aids to erect the Amundsen hangar for the Norge (pronounced in two syllables with a hard g) and helped Byrd's men handle materials about that intrepid flyer's base.

3 o'clock in the morning and no sleep yet!

INSURE your sleep against the pest of mosquitoes and early morning flies. Spray Flit.

Flit spray clears your home in a few minutes of disease-bearing flies and mosquitoes. It is clean, safe and easy to use.

Kills All Household Insects

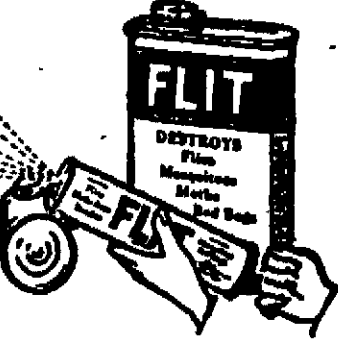

Flit spray also destroys bed bugs, roaches and ants. It searches out the cracks and crevices where they hide and breed, and destroys insects and their eggs. Spray Flit on your garments. Flit kills moths and their larvae which eat holes. Extensive tests showed that Flit spray did not stain the most delicate fabrics.

A Scientific Insecticide

Flit is the result of exhaustive research by expert entomologists and chemists. It is harmless to mankind. Flit has replaced the old methods because it kills all the insects—and does it quickly. Get a Flit can and sprayer today. For sale everywhere.

THATCHER

BOILERS-FURNACES-RANGES

Rest

Your wife will appreciate, throughout the day, the small amount of attention this simple, economical furnace requires—and in the evening you will be able to more thoroughly enjoy your well-earned rest.

Economical in both first cost and fuel consumption, the Thatcher "Meteor Pipeless" will prove a most satisfying furnace, and one that will keep your house comfortably warm in the coldest weather.

Mail coupon below and let us send you literature describing the efficient and economical Thatcher "Meteor Pipeless"

"This warm air from the Thatcher 'Meteor Pipeless' furnace rises through a centrally located register to all the rooms. When cool it is drawn back to the furnace and is moistened, re-heated and recirculated, thus insuring a constant flow of evenly heated 'moist' air. Write today."

NEW HURLEY.

New Hurley, July 15.—Leland Van Kleeck has purchased a new Jordan car.

Mr. and Mrs. Gerow Schoonmaker are entertaining Mrs. Schoonmaker's parents from Castle, N. Y.

Mrs. William L. Burke of East Orange, N. J., is spending some time at the home of Mrs. J. Sutton.

The Rev. Von Ahrensdoerf of Schuylerville, N. Y., who preached as a candidate a few weeks ago, will occupy the pulpit on Sunday, July 19, and also on July 25. It is hoped there will be a large congregation.

Don't forget the annual church fair on Thursday evening, July 22, given under the auspices of the Young Women's Club. All kinds of hand-made fancy articles will be for

sale, also home-made candy, home-made food and cafeteria supper. There will be a crab bag for the children and a drink booth. Soha's orchestra of Walden will furnish music.

A business meeting of the W. C. T. U. will be held at the home of Mrs. Frank Schoonmaker on Friday afternoon, July 16. A good attendance is desired.

There You Have It

"Oh, yes," said Donald, "I know enough what metaphors are. When the party who listens does not what the party who speaks means, or when the party who speaks does not what he means himself, that's their phrasia."

Financial and Commercial

New York, July 15.—The upward trend of the stock market was at least temporarily checked today.

Further profit-taking together with rather heavy selling by professional operators trying to bring about a technical reaction, brought about an irregular market with the undertone easier.

General Motors, which for the last few days had been advancing steadily, declined this afternoon to 159 1/2, down 1/2 from yesterday's close.

United States Steel eased off during the forenoon but subsequently came back to 141 1/2, last night's closing price. Most of the declines recorded today were fractional.

Most of the motor stocks were slightly weaker. Dodge, however, was an exception, this stock moving up 1/2 point this afternoon to 21 1/2, a new high level for the week.

Packard fell off 1/2 to 42 1/2. Studebaker declined 1/2 to 54 1/2. Stewart Warner was 1/2 lower at 75 while Overland rose 1/2 to 23.

T. S. Cast Iron Pipe attracted attention in the specialty group through its wide fluctuations. After selling down to 22 1/2, it rallied to 22 3/4, up 1/2 from yesterday's closing. Allied Chemical and Dye declined a point to 139.

Quotations given by C. D. Halsey & Co., 27 William street, New York City, branch office, Warren Building, 200-62 Fair street, Kingston, N. Y.

Farming Interests to Feel Loss of Beaver?

The ruthless destruction of the beaver, nature's ablest engineer, is causing a huge economic loss to the farming and stock-raising industry of western America, according to discoveries made by experts of the British Columbia game conservation board. Beaver dams, these experts have found, are invaluable to agriculture because they conserve moisture which otherwise would run off quickly into rivers and be lost. Now that beaver dams all over the West are disappearing with the slaughter of their makers, agriculture in many places is feeling the effect in the form of drier soil and smaller crops.

The trapping of beaver, which in the past has been regarded only as a problem of fur conservation, thus is becoming large as an economic problem as well. On this account the protection of beaver and their strange homes is becoming an increasingly important matter and game officials are studying it carefully. Investigations already conducted, show that beaver dams in the past have exerted a wide-spread influence upon the water supply of Canada. Damming up thousands of creeks and rivers, the busy little animals have created enormous reservoirs where water is conserved during the dry summer months. This work, however, has gained them the enmity of farmers who blame them for occasional floods, but actually they are one of the farmer's best friends, game experts declare.

"The loss of fur bearers through the partial extinction of the beaver is not as great as the injury to agriculture and stock raising brought about through the rapid run-off of water as compared with the retention of this water by beaver dams where the beaver remains plentiful," M. R. Jackson, chairman of the British Columbia game board, declared in announcing the latest discoveries concerning beaver habits. "This is a serious economic problem, and one to which perhaps sufficient consideration is not given when many requests are made for the destruction of beavers for their furs or because here and there a few acres are flooded by their dams."

Drawing the Line
"I have every confidence in my wife," an Atchafalpa man said, "but I am not going to give her lessons in pistol practice."—Atchafalpa Globe.

DIED.

ENNIST—In this city, July 13, George W. Ennist, beloved husband of Mary Frank Ennist. Funeral from the late residence, 405 Washington avenue, Saturday, July 17, 1926, at 10:30 a. m. Relatives and friends are invited to attend the funeral service in the family plot, Trinity Cemetery, Barclay Heights, Saugerties, N. Y.

Attention B.B.s.
Members of Kingston Lodge, No. 556, B. P. O. E., are requested to meet at the B.B. Home, Friday evening, July 16, at 7:30 o'clock, to proceed to the residence of our deceased member, George W. Ennist, 405 Washington avenue, where the B.B. funeral service will be held at 8 o'clock.

J. R. RICHMAN, Exalted Ruler.

CHAS. J. MULLIN, Secretary.

NOTICE—In this city, Thursday, July 15, 1926, Josephine L. Jones, nine-year-old daughter of Mr. and Mrs. Grant Jones of Thompsonville, Conn.

Funeral notice later.

Society Notes

Tappen-Purcell.
Miss Ella Mae Purcell, youngest daughter of David Purcell of Allentown, and Claude Tappen of Kingston were married at Saugerties Monday afternoon.

Little Gardens Club.
There will be an important meeting of The Little Gardens Club at the home of the president, Mrs. Hathaway, No. 77 Linderman avenue, on Friday afternoon at 2:30 o'clock. A full attendance of Club members is urged.

LOCAL DEATH RECORD.

Recent Deaths and Funerals of Persons in This Vicinity.

Mary Feranto died at the home of her parents in Mottuch on Saturday, July 10. Interment was in Lloyd Cemetery.

Joseph Hendrickson, an old and respected citizen of Mottuch, died on Monday at his home there. Funeral Thursday afternoon at two o'clock.

While sitting in front of Hugh Glennon's hotel on Water street, Catskill, Saturday night, conversing with some friends, Douglas Van Dyke, the contractor, collapsed and expired almost immediately. Coroner Dr. L. B. Honeyford, who was summoned, pronounced death due to heat prostration.

George W. Dennis, well known actor-singer, died at his residence, 197 Washington avenue, early this morning after a short illness. Besides his wife he is survived by his father, James Dennis of Saugerties, two sisters, Mrs. William Lang of Saugerties and Mrs. Robert Winkler of New York City, and two brothers, James of New York City and Benjamin of this city. He was employed at Owen M. Kennedy's Central Garage. He belonged to the Elks, Moose and Red Men. Funeral on Saturday at 10:30 interment in Barclay Heights Cemetery, Saugerties.

Dry Brook, July 15. James Fairbairn, an aged and life-long resident of Dry Brook, died on Friday, July 9, after a long illness having been in failing health since the death of his wife last December. He is survived by one son, Robert of Barberton, Ohio, and a daughter, Hazel, of this place, besides several brothers and grand children. His funeral was held Monday with the Rev. M. Combs officiating. Among those from out of town who were here to attend the funeral were Mr. and Mrs. James McDonald and two sons and Mr. and Mrs. William Packard and son of Sidney.

The funeral of Patrick Norton was held from the residence of his sister, Mrs. Michael Sweney, 54 Spruce street, Wednesday, at 9 a. m. and from St. Mary's Church at 9:30, where a requiem high Mass was celebrated for the repose of his soul by the Rev. Joseph B. Scully. The funeral was a large one and there were many floral tributes signifying the esteem with which the deceased was held. The bearers were Edward DeWitt, Cornelius Corkery, Adam Brown, and Daniel Madden. Interment was in the family plot in St. Mary's cemetery where the Rev. William H. Kennedy conducted the committal services.

Plattekill, July 15.—Mrs. Josephine Baxter died at St. Luke's Hospital at Newburgh on Saturday, July 10, following the amputation of a limb infected with gangrene. Mrs. Baxter was 65 years old and is survived by the following: Two daughters, Mrs. Atkins of Marlborough and Mrs. Francis Tremper of Plattekill; three sons living at Plattekill: Charles of Marlborough and Augustus of Modena; three sisters, Mrs. Robert Harris of Clinton Dale, Mrs. Homer Sutton and Mrs. George Baxter, both of Plattekill. Mrs. Baxter was beloved and respected by many. Her loss is felt keenly and sympathy is extended to the bereaved family. The funeral was held from her late home at Plattekill. The Rev. Mr. Taylor of the M. E. Church officiating. Burial was in Friends' Cemetery at Plattekill.

Henry W. Dean, a veteran of the Civil War, died Tuesday at the home of his son, William Dean, 105 Woodland avenue, Newburgh, in his eighty-first year. During the Civil War he served with the old 124th Regiment and was wounded seriously in the fight near the peach orchard at Gettysburg. As a result he walked with a limp, a piece of shell having shattered a bone in his left leg. He was born in Schoharie county and for thirty-eight years conducted the Newburg Valley House at Newburgh, Sullivan county. He is survived by two sons, William of Newburgh, and Frank of Newburgh; a daughter, Mrs. Edna Muth of Newburgh, and a brother, Allen of Sundown, Ulster county, who is also a veteran of the Civil War. Funeral services were held today at the Grahamsville Reformed Church with interment in Grahamsville cemetery, where his wife, who died fourteen years ago, is buried.

Returning Day
People piled up when I advocated, seriously, the establishment of a national holiday to be known as Return day, the observance of the day to be the restoration to proper owners of everything that had been borrowed during the preceding year, with special reference to books, umbrellas and garden implements. Since I demanded that this holiday be observed, people just as I did, have been joined in the appeal, but there are only five or six of us altogether who have taken a holiday, and of course we will never get it. We are pulling for something useful and sensible instead of trying to spend something, and we are doomed to failure. George Ade in *Hearts' International Cosmopolitan*.

So There Was
Professor on an informal student, professor speech. Well, it seems there was an unimpaired professor who who let's see, what was I starting to say?—Columbia Critic.

Length of Skirt Still Undecided

Fall Garment May Reach Closer to Ground. View of Lucien Lelong.

There are faint signs on the horizon of the lowering of the skirt for next autumn, writes a fashion correspondent in the New York Herald-Tribune. Despite the occasional lessening of the skirt length at the recent demi-season openings, close observers insist that late summer and early fall will witness skirts that are a few inches closer to the ground. That at least is the view of Lucien Lelong, who makes the forecast, although he would prefer to see the present knee-length abbreviated remain. Following is an enlightening commentary on this always interesting subject, written by M. Lelong.

"Skirts, like the days, are growing longer. The thing is almost imperceptible yet, and I sincerely trust that it will remain so. And yet there is no doubt that skirts are about to lengthen a little. I was certain that in my new mid-season collection of gowns the skirts were as short as ever; and yet, when I make the comparison with the recent past, I see that on the average the hems are a little closer to the ground. I have unconsciously yielded to an influence that is certainly just now in the air.

"But I hope—and I can only hope—that this trend will not continue. I do not like long skirts. Skirts at their present length are admirable for an artistic design in a dress. This may be only one of those slight seasonal fluctuations that will be forgotten by autumn, or it may be the start of a movement that will actually change the silhouette. We shall have to wait to see.

"If, however, it is the start of a grand movement, then it has a spiritual meaning; for style expresses the tempo of life and the way women feel. The best dress designs are those closest in sympathy with the movement in existence at the moment. And so, if skirts are getting longer, it is an indication of a change in spirit on the part of women.

"There are many examples to show that grand independence and brevity of skirts march together. The symbol of liberty could just as well be the knee-length skirt as the eagle. Women who have sought most independence—women like Catherine of Russia and Christine of Sweden—have abandoned skirts altogether and have worn the garb of man. It was one of the charges brought against Joan of Arc.

"Brevity of skirt is a sign of liberty, and for that reason I cannot conceive of women's skirts being very long again in our time. Long skirts are not in harmony with the spirit of independence which the modern woman has developed. For that reason I think that the present lengthening tendency must be of short duration."

White Silk Printed Dress for Sports Wear

Here is a lovely white silk printed dress designed for sports wear. It has a belt of green suede and a green silk tie. It should appeal to the young women.

Sheer Fabrics Favored for Evening Apparel

The colors for the evening favored at the present time are pink, white, black, silver, champagne, mauve, cyclamen and blue. Silk tulle as well as the more customary chiffon, georgette and lace now are used for evening frocks. Very full skirts with panels, points, petals, codrils and bouffants are best suited for models made in these fabrics. Frequently these are embroidered all over. The bodices are plain or trimmed with some embroidery, not much decorative in front (in a rounded shape usually), but often with a very low point at the back.

Lightness is the keynote of the evening mode, and beauty of material is allied to subtle sophistication of line. The creation of effects which are distinguished because of their perfect simplicity. Gold and silver tulle and very beautiful brocade are much employed for the more formal type of evening gown.

Give Name to College

Dartmouth college, at Hanover, N. H., was named by its founder, Eleazar Wheelock, in 1769, for William Lazenby, the second son of Dartmouth, who was a trustee of a fund for Wheelock's Indian school in Connecticut.

Novelty Crepe in Tan, 'Brown Velvet Flowers

Showing a lovely model for afternoon, made of novelty crepe in tan, and trimmed with brown velvet flowers applied to the dress. In style the dress is quite simple, with short, tight bodice and wide circular skirt. The sleeves are long with puffs at the cuffs.

Parisiens, Americans at Odds on Fashion Details

The Parisian and the American are always at odds when it comes to little details of fashion. The main fashion ideas of Paris are always carried out in America but we are not always ready to accept minor style details. For instance, the smart French woman is now wearing black glazed kid gloves of short type with little ruffles at the wrists while the smart American invariably wears suede in light shades such as parchment, beige or gray. In the matter of corsage for day wear, the Parisian prefers leather buttonholes to the silk or cotton flowers of American preference. At present leather asters with shirveled petals painted in oriental colors and outlined in silver or gilt are considered very swank in Paris. Patent leather flowers in colors with the inside of the petals tinted with opalescent luster are another novelty. For wear with the sports outfit, vari-colored flowers of felt are considered smart.

While we are wearing parchment colored hosiery the Parisian wears beige and rose de bois. Recently there has been an effort to bring sheer white stockings back into vogue and many well dressed Parisians are wearing them with black shoes. So far, this style has not been launched in America.

Some of the most attractive wraps in Paris are in reality mackintoshes. The American wears rubberized silk raincoats in bright or pastel shades which are strictly for rain purposes. The French woman combines the raincoat with the street coat in a garment resembling lustrous satin which completely camouflages its utility purpose. A stunning wrap of this type is a rubberized black satin coat with a detachable cape lined throughout in white.

Fur Trimming Adorns Chic Coat for Summer

A coat in one of the heavier silks is extremely smart for summer days. One coat is developed in green bengaline. Most of the fullness is at the back, as now is the fashion, and is attained by panels which hang loose, being applied to the coat in a rounded movement which gives a very graceful line. The indication of a higher waistline in the front is of particular interest.

One now is accustomed to see fur trimmings—even important ones—on summer models, and many coats have light fur collar and cuffs. This mode probably will persist as there is nothing so becoming as a fur collar. As for fur borders, these are seen even on chiffon wraps or coats.

From Paris come news of the latest trends in millinery. Lewis continues to make much gold and silver kid trimmings on felt hats. The gold or silver forms narrow borders or quite important insertions. A black straw beret, for instance, was fixed in front to a strip of silver kid.

Other trimmings, and these are newer and more numerous, are made with grosgrain ribbon, which very often is plisse even when inserted into felt or straw. There also are hats made entirely of wide grosgrain ribbon, and in a very pretty model the crown was black in front and pink at the back. Most of Lewis' hats are small and have rather high crowns, which are "squashed" plaited or draped, while the brims are irregularly turned up.

Sports Lines Rule the Mode

At almost every summer resort costumes of the semi-sports type are the rule for practically every daytime occasion. And while the materials may differ according to the time and the place, the general silhouette remains the same. Comfort and convenience are allied to chic and distinction in these models, which combine all the utilitarian features of the long-accepted sports clothing plus a vastly more delightful appearance.

Search Ruins For Fire Victims

Firemen and State Troopers started searching for bodies in the ruins of Twilight Inn early this morning after having kept a steady stream of water playing on the ruins all night. All of the chimneys but one have been pulled down.

Belief that some of the missing have been burned to ashes was expressed today by Coroner H. G. Baldwin of Tannersville.

Four of the injured were to be removed late this afternoon to the Kingston City Hospital. The four to be removed here are Nellie Adele Monsalvat, of Forest Hills, Long Island; Mrs. Emma Mattusch, and Mrs. Peter Martin, and Miss May Flemming, both of Jersey City.

Mrs. F. D. Backus of Forest Hills and Mrs. Laura M. Garrett, who were seriously injured in making their escape, are reported to be a little better today.

Start Inquest This Afternoon.
Coroner H. G. Baldwin planned to start his inquest this afternoon. He will be assisted by County Judge William E. Thorpe of Catskill and District Attorney Harrison I. Gardner of Catskill.

STEREOPTICON LECTURE AT SAHLER'S TONIGHT.

The Sahler Sanitarium announces a stereopticon lecture on "Our Finland Friends" by George Huntington Donaldson of New York this evening at 8:15 o'clock in the Sahler Park.

Mr. Donaldson has been one of the New York board of education lecturers for a number of years and is giving this lecture at many of the high class resorts throughout the east this summer. This lecture promises to be very entertaining and instructive and the friends of the Sanitarium in town are invited to come.

About the Folks

Miss Anna R. Gallagher, of Hudson is visiting her aunts in this city.

Edward Houghtaling, assistant manager of the electric department of the Canfield Supply Company, has returned from spending his vacation in the metropolitan district.

Miss Anna May Lay of the Lenox Hill Hospital, New York City is spending a three weeks' vacation at the home of her parents, Mr. and Mrs. Charles Lay, Albany avenue extension.

Humanity's Increase

It is estimated that there are over 40,000,000 births every year. Supposing that the children could be carried past a given point at the rate of twelve a minute, the one who was last would be seven years of age before he passed the counters.

At last—a fine Baby Grand at a surprisingly moderate price

\$695

A remarkable achievement in piano values. On convenient payments. Year old piano taken in exchange.

THE NEW Standard

Just placed on the market! Never before has such a quality Baby Grand been offered at so attractive a price. The sort of really fine piano you've always dreamed of—now, within your reach.

The new Standard is made and guaranteed by the makers of the famous Hardman Piano. It is 4 feet, 11 inches in length—the result of years of effort to produce a small Baby Grand with the same beauty of tone and full volume of the larger and more expensive instruments. Priced for the moderate pocketbook—for music lovers who know that a "cheap" piano is never economy.

Here is rich, vibrant, singing tone, exquisite design, painstaking craftsmanship, durability—a piano which will remain in superb condition all your life.

On Convenient Monthly Payments
Made and guaranteed by

Hardman, Peck & Co.
433 FIFTH AVE., NEW YORK 47-51 FLATBUSH AVE., BROOKLYN, N. Y.

Time in the Hardman House of Music Every Friday Evening 8 to 10—W.M.C.A.
